

# 2024 IEEE Conference on Advanced Topics on Measurement and Simulation (ATOMS) - AUGUST 28-30, 2024

## 6<sup>th</sup> IEEE Romanian Summer School on Antennas, Propagation, and RFID Applications - AUGUST 26-27, 2024

<http://atoms2024.org>

An Event Group hosted by Constanta Maritime University with the support of the Romanian Association on Antennas and Propagation

The 2024 Advanced Topics on Measurement and Simulation (ATOMS) is a biennial forum for the exchange of information on the research and development focusing on models, measuring techniques and simulation tools for engineering. It also aims to bridge the gap between different areas, such as electronic engineering, communications, signal processing, electric engineering, environment protection in terms of methods for modeling and experimental validation. At ATOMS, all the oral presentations are delivered by invited prominent researchers and professors. ATOMS has a particular focus on posters by which authors have the opportunity to interact with leading researchers in their fields. ATOMS 2024 is organized by Constanta Maritime University and by the National University of Science and Technology POLITEHNICA of Bucharest. It is technically co-sponsored by the IEEE Romania Section, by the IEEE Romania Section - Antennas and Propagation Society / Council on RFID Joint Chapter, by the IEEE Romania Section - Communications Chapter, and by the Romanian Association on Antennas and Propagation (RAAP).

Just before ATOMS 2024, Constanta Maritime University will host the 6th Romanian Summer School on Antennas, Propagation, and RFID Application. Students from technical universities in Romania and abroad will have a unique opportunity to interact with top representatives from academia and industry during lectures, hands-on workshops, round tables, and contests. The meeting is supported by the IEEE Antennas and Propagation Society, Constanta Maritime University, and the Romanian Association on Antennas and Propagation (RAAP).

### CALL for SPONSORSHIP

#### SPONSORSHIP LEVELS:

##### Platinum: 2500 Euro

- Four full registrations, including Summer School and Conference
- A talk during the Summer School
- An exhibitor booth at the Conference
- Company advertisement on the website, on rollup at the event venue, and in the conference program

##### Gold: 2000 Euro

- Three full registrations, including Summer School and Conference
- An exhibitor booth at the Conference
- A talk during the Summer School
- Company advertisement on the website, on rollup at the event venue, and in the conference program

##### Silver: 1500 Euro

- Two full registrations at the Conference
- An exhibitor booth at the Conference
- Company advertisement on the website and in the conference program

##### Bronze: 1000 Euro

- One full registration at the Conference
- An exhibitor booth at the Conference
- Company advertisement on the website and in the conference program

### CALL for EXHIBITORS

#### Registration fee: 500 Euro

The exhibitor registration fee includes:

- One full registration at the Conference
- An exhibitor booth at the Conference

### IMPORTANT DATES

Prospective sponsors and exhibitors are strongly encouraged to contact the conference chairs by **June 1<sup>st</sup>, 2024**.

#### Contact:

##### General Chair

Prof. Razvan D. Tamas  
Constanta Maritime University,  
President of the Romanian Association on Antennas and Propagation  
[tamas@ieee.org](mailto:tamas@ieee.org)

##### Organizing committee chair:

Dr. Andreea Platica  
Constanta Maritime University,  
Treasurer of the Romanian Association on Antennas and Propagation  
[andreea.constantin@ieee.org](mailto:andreea.constantin@ieee.org)
